

# State OKs La Presa Recreation District

## Formation Too Late For 1963 Tax Rolls

SAN DIEGO (CNS) — A State report on a proposed recreation district in Spring Valley proclaimed the district "feasible." The County Board of Supervisors, to whom the report was issued, handed it to Biff Gardner, County Director of Parks.

The need is in evidence and no other agency could be expected to supply the service, the report showed. An alternative to formation of a district would be established of a county service area which would require the county to administer the program with a local advisory body.

Financing the program would create problems, it was said. A maximum tax levy would provide only limited development. Bonds could provide adequate financing. Population for the district to be about the size of the La Presa Water dist. would be 5,000 and assessed valuation about \$6 million.

It was also pointed out that schools, because of lack of funds, could not provide additional recreational programs.

Petitions, with 338 names on them, were received by the Supervisors in November. There have been no opponents to the proposal.

## Kiwanis Club Plans Doubleheader S.V. Beautification Program

To help beautify the Spring Valley area is of prime importance to the Spring Valley Kiwanis Club, according to Elmer Lash, junior past-president. Lash said this week that the club's agriculture and conservation committee, with Grant McClellan as chairman will make an effort again this year not only to see that the area is planted with new shrubs and kept up, but will also conduct another campaign for the extermination of the "Russia Thistle" (tumbleweeds) in the area.

It was the S.V. Kiwanis Club which spearheaded the tumbleweed program last year. The club had the full cooperation of the S.V. Chamber of Commerce, the S.V. Fire Department and many individuals. Lash said also the club will have the full cooperation of the "Anti-Litter" group of San Diego County when the local tumbleweed campaign gets underway.

## Men's Club To Hear E. J. Burt

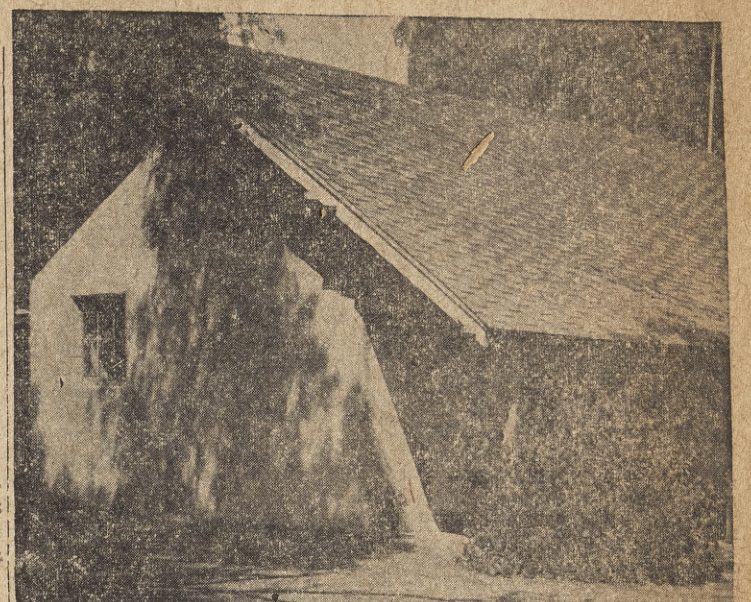

The Lemon Grove Men's club will resume regular Friday meetings beginning this week after being closed during the holidays, according to Jim Spears, club president.

Kicking off the 1963 schedule of programs will be Edward J. Burt, newly appointed assistant manager of the L.G. branch of the First National bank. He will discuss "Promoting Lemon Grove."

Spears said that programs relative to improving the status and condition of Lemon Grove would be provided as often as possible.

Programs supplied by various clubs of state and county government would be encouraged during 1963, he added.

The club meets every Friday night at 8:00 p.m. and is for men only. Any man may attend these no-admission charge meetings without invitation, he said.

LOCATED BY THE SPRING VALLEY Chamber of Commerce hall off Bancroft Drive in north Spring Valley, the Bancroft Ranch House shown here (also called "Old Adobe") was designated a national historic landmark lately. This puts it in the same category with internationally-famous historic places.

Mrs. Eileen Smith, historian for the S. V. Chamber said that Hubert Howe Bancroft, great historian of the west who died in 1918 did much of his writing in the ranch house. The family lived in a house on a hill behind this site of authorship. Bancroft's ranch consisted of several hundred acres of land, some of which contained olive trees that can still be seen.

In 1958 "Old Adobe" was designated California historic landmark number 656.

## Bancroft Ranch House In Spring Valley Named U. S. Historic Landmark

WASHINGTON, D.C. — Senator Clair Engle (D-Calif.) announced Jan. 9 that five California sites have been named as Registered National Landmarks.

They are:

- Jack London Ranch, Glenn County.
- Hubert Howe Bancroft Ranch House, Spring Valley, San Diego County.
- The Abbey, Oakland home of Joaquin Miller.
- Frank Norris Cabin, Redwood retreat, near Gilroy, Santa Clara County.

Senator Engle said that Registered National Historic Landmarks are sites which commemorate and illustrate the history (Continued on Page 4)

## Annual 'March Of Dimes' Underway

"The need is there, but our treasury is bare," said Helen R. Cobb, county campaign chairman for the March of Dimes which is underway again. County expenditures for patient care of polio victims amounted to more than \$71,500 during the last fiscal year, according to Mrs. Cobb, a San Diego city councilwoman.

This includes payments for appliances, x-rays, equipment maintenance, home attendant care, therapy, transportation and hospitalizations.

## Subscriber List Swells As 86 More Families Say 'I Do'

Eighty-six names were added to the list of subscribers from which the Spring Valley Welfare Association profits, it was announced this week.

The persons in this week's list brings to a total of 360 the families who are making the contribution to the S.V. Welfare fund by taking out a subscription to this newspaper.

For each new subscription, the Welfare Assn. is given ten cents. A renewal provides them with five cents. Settlement is made each week with the group as the new list is published.

The campaign has been averaging about 80 subscriptions a week except during the holiday weeks when the totals drop slightly.

The names of subscribers

taking part in the project are listed each week in the newspaper so that the subscriber knows a contribution is being made in his name.

It is possible to make a contribution to the local Welfare group other than by subscribing to the newspaper. In such a case contact should be made through the group's Spring Valley retail store at 1072 Gillespie dr., S.V.

The list of subscribers participating this week in the campaign include the following:

## \$50,000 BUILDING PLANNED

### La Presa, Otay Water Districts Working Toward Total Merger

The possibility of merging the La Presa County Water Dist. and the Otay Municipal Water Dist. came closer to reality this week by an agreement of the two.

The agreement puts field operations of the two water districts under one manager, Fred J. Hansen, president of the La Presa District said this means a big saving to both. The possibility of merging has been under study for two years, Hansen said. He pointed out that total merging should take place within a few years.

This week's agreement calls for construction of an office building at a cost of \$50,000 to house the combined office forces. It will be near the intersection of Sweetwater Springs and Jamacha blvds. Hansen said the building will be paid for from a special fund now in the bank drawing 3 1/2 per cent interest. He said it will not be necessary to sell bonds or borrow money to construct the building.

To Be Leased

The building will be leased to Otay Dist. at \$350 per month for 20 years with an extension of 10 years being granted if so desired. He said also that the Otay Dist. may purchase the building at any time for \$60,000. The Chula Vista office of the Otay Dist. will close when the local building is completed.

Harry Baker, who has been with the Otay Dist. for some time has been active as manager for both districts since Nov.

ember of 1962. All La Presa personnel, except two have been transferred to the Otay Dist.

The Otay Dist. has built a new equipment yard adjacent to the present office building and a new 100,000 gallon water tank has been installed in the pumping station yard at Jamacha and Sweetwater blvds. All of this is being paid for by Otay. The new tank, which is at the end of the aqueduct receives all water coming into La Presa.

Duplication Eliminated

Hansen said this week's agreement will eliminate duplication of work. He said La Presa has already eliminated its water tax and reduced its rates. He said the "ad valorem" tax for Otay has been reduced in two years from \$1.25 to 30 cents and there is hope that the tax will be done away with in a few years.

The present building of the La Presa Water Dist. will be used as a field operations office when the new one is done on July 1 of this year.

During the same meeting at which the agreement was signed, it was voted to purchase two-way radio equipment for the two districts at a cost of approximately \$6,000 with the antenna to be located on Dictionary Hill. The equipment will serve five vehicles and one ground unit anywhere within 70,000 acres which make up the town districts. La Presa is to purchase the radio equipment and lease it to Otay. The order to purchase the equipment was

approved by the La Presa board but not Otay yet, manager Baker said.

### Workers Taxes Are Increased . . . Instead of Being Reduced

All of this talk about giving the taxpayer a break is poppycock.

The vet-to-be-decided-how-much tax cut, if there is to be any at all, is as phony as some of the other m's mouthings emanating from recesses of the New Frontier.

If a tax cut comes, it will be welcomed by every working stiff and business man across the nation. But ask these same people whether or not their tax burden has increased this year . . . the year of the tax cut.

Already, two payroll taxes—inescapable ones, are taking more from employee and employers alike. This is a tax cut? The increases are in Social Security and State Unemployment Compensation Disability taxes and they will take \$24 more from individuals this year, increasing the tax burden from \$150 in 1962 to \$174 this year. It is not likely that a tax cut will equal this year's increases.

The Social Security increase is felt right now. Each worker felt that with his first pay check this year. But State tax is more insidious. Last year this tax was withheld on the worker's first \$1,100. It is increased \$500 this year before the deduction is dropped. Every year until 1965 the maximum will increase until it becomes \$5,600.

In the years ahead the total Social Security rate is scheduled to increase to 7 1/4 per cent for 1963 through 1965, to 8 1/2 per cent for 1966 and 1967 and to 9 1/4 per cent for 1968.

An interesting fact is that the Social Security program was started in 1937 when the argument was advanced that OASI would do away eventually with welfare payments and "relief" in the states. County and State tax bills, instead of getting smaller, have also become more onerous.

MISS S.V. ENGAGED

Mr. and Mrs. Fred Ralston of 8770 La Mar st., Spring Valley, announce the engagement of their daughter, Barbara Jean (Miss Spring Valley of 1962), to James T. Ferguson, son of Col. James W. Ferguson (USMC ret.) and Mrs. Jean A. Ferguson of 3790 Skyline rd., Carlsbad, Calif.

The bride-elect is a graduate of Mt. Miguel High School and at present attends San Diego State College. She became Spring Valley's official hostess and prettiest girl last year when she won the annual "Fairness of the Fair" beauty contest on the community level.

Mr. Ferguson will graduate from San Francisco State College this month (Jan.). He is a graduate of Oceanside-Carlsbad High School. No date has been set for the wedding.

Miss Ralston rode on the "Let Freedom Ring" float of the Spring Valley Chamber of Commerce in the Spring Valley Parade in Casa de Oro, on the Chamber's Christmas float which won sweepstakes at the Toyland Parade in North Park and has appeared at numerous events filling her role as Miss Spring Valley.

## S.V. Post Office Racks Up Record Handling, Revenue

Postal receipts records fell in Spring Valley last year and a record of appreciation was given this week to the mailing public and to the personnel which made the record possible in the Spring Valley Post Office.

Mrs. Mildred Moran, S.V. Postmaster, reported this week that December mail cancellations were 49% greater than the corresponding period a year before. Revenue was up 12%.

The high peak was hit in December when 49,274 letters were cancelled on the 18th.

The Post Office had an increase in receipts in 1962 of 6 1/2% for a total of \$65,633 gross income.

In December, revenue carrier delivery hours were up only 1 1/4%. Clerk hours were up 2 3/10%.

Mrs. Moran said the proportionate decrease in costs were due to better cooperation by the public in mailing earlier, increased use of trained personnel and a recent pay raise which generated better postal employee morale.

## DMV REMINDS DRIVERS OF LICENSE DEADLINE

A letup on the number of motor vehicle registrations for 1963 was reported by Ennis Scott, manager of the La Mesa Department of Motor Vehicles Office.

Pointing out a Feb. 4 deadline for renewal without penalty, and aware of the long, slow-moving lines that always develop in the last few days, Scott urged all local residents to come in now.

"Right now, we'll guarantee the quickest, most efficient service possible," Scott said, but added that the same quick service may not be the case during the last hectic week of renewal. Scott estimated that the renewal operation to date is running 24 per cent above last year. He also pointed out that straight processing of automobiles only on the renewal cards mailed from Sacramento is available at:

Security Bank, 850 N. Second St., Bostonia; Security Bank, 205 W. Main St., El Cajon and First National Bank, Euclid & Federal, San Diego.

License plates for vehicles other than automobiles will be issued only at DMV or at auto clubs for members.

## Around Our Valley:

News and Views from Spring Valley

By Tommy Thomas

### NEW YEAR'S RESOLUTIONS LIKE SOUND BARRIER, BUT GOOD TO KEEP

New Year's Resolutions are like the sound barrier—something to be broken. But there are many of us who have the stick-to-it-iveness to avoid breaking resolutions. To these persons I doff my hat.

I have great hopes that many of you good friends and neighbors have resolved to report more news to us during 1963. You see, a newspaper depends on you, the public, for much of the news. The minutest incident to you may mean a very big story. Little things that happen around your neighborhood may make good reading. Names, names, names and more names; these are what a community newspaper thrives on. So make it a point to report a few items to us during the new year. "We'll be most happy and so will you."

"May good health and prosperity be yours during 1963."

### DURING GLOBAL TRAVELS VALLEYITE FINDS THAT AMERICANS ARE WELCOME

"It's great to be an American and to know you are welcome in most any place around the world," was the recent opinion of Mrs. Gertrude Gilbert of 10310 Don Pico rd. Mrs. Gilbert recently returned from a trip which took her around the world to Europe, the Near and Far East. She was gone eight months and arrived home just a few days before Christmas.

Mrs. Gilbert took a liner from New York to Sweden. From there she went to Norway and arrived at Bergen just as that town was holding the Edvard Hagerup Greig festival. Greig, one of Norway's foremost composers lived from 1843 to 1907 and was often referred to as the "Chopin of the North."

From Bergen, Mrs. Gilbert went up the coast to Kirkenes north of the Arctic Circle. This was during the latter part of May and there was no night at that time of year, just 24 hours of daylight, which continued through July.

### Finds Finland Clean

Coming back down the coast, Mrs. Gilbert went into Helsinki, Finland. She said she was greatly impressed with the cleanliness and scenic beauty of Finland. She pointed out that Helsinki is an up-to-date modern city comparing favorably with American cities. Again she arrived in a city which was holding a festival honoring Finland's famous composer Jean Julius Sibelius, born in 1865. The festival lasted a week and while there she attended several concerts. She said the audience was comprised of people of the world over, reminding her of a meeting of the United Nations.

From Finland Mrs. Gilbert went via ship to Stockholm, Sweden. There she visited several relatives (Mrs. Gilbert was born in Moorhead, Minn., her parents coming from Sweden). In Sweden she also toured the University of Sweden and several castles, as well as taking a trip to the grave of the late Dag Hammarskjold, former secretary-general of the United Nations, who died in a plane crash in Africa. Stockholm, Mrs. Gilbert said is built in seven islands.

### Visits Copenhagen

From Stockholm, her trip took her to Goteborg via the Gota Canal, a three-day trip, which takes just a few hours by car. Then a short jump and she was in Fredericksvaerk, Denmark. Then through the Hans Christian Anderson country to Copenhagen (Copenhagen). From there to Germany, where she spent two enjoyable days cruising the Rhine River, one of Europe's leading com-

mercial rivers, where ply many barges.

Leaving Frankfurt our Spring Valley traveler went via plane to Madrid, Spain. While there she took several side trips, the most interesting being to Seville, Granada and Toledo. There are many sights to see in this beautiful country, Mrs. Gilbert said, one being the great monastery, El Escorial, where lie the caskets of kings and queens. There also is a great memorial to the dead, built under the direction of Franco.

From Spain Mrs. Gilbert flew to Rome. While in a crowded part of the city she lost \$91 by way of a pickpocket, she complained. She said she made a tour of many of the ancient landmarks but that it is impossible to see all of Rome in one or two weeks. She did get to see the country home of Pope John.

Mrs. Gilbert's next stop was Athens, Greece, where she took in all the points of interest. She was especially intrigued with the Isle of Hayden and the ancient village of Delphi (Delphi) built on a hillside. Then a short hop to Tehran, Iran (formerly Persia). She was there four days. By paying \$1 admission charge she was able to see the famous Persian crown jewels valued at \$6½ million. These well-guarded jewels are under glass in the Bank of Iran. Other points of interest Mrs. Gilbert said, are many of the castles and the world-famous market places.

### Sees Buffalo, Camels

From Iran she went to Karachi, Pakistan, where she visited a friend in the U.S. Embassy. She did a bit of sight-seeing and was especially intrigued with the numerous water buffalo and the never-ending camel caravans. She said the camels are parked along the streets much the same as we park cars here in the United States.

Next Mrs. Gilbert went to New Delhi, India, where she stayed several days. She took several side trips, one being to Agra and the world wonder, the Taj Mahal. Also she visited several palaces of former kings and the market places. She said at times she was depressed because of the extreme poverty in parts of India. She was in India in November and a lot of Army recruiting was going on in Bombay due to the Chinese invasion. She said the shops and the people were most interesting. Many of the people, she said, speak perfect English and many anticipate coming to the United States. They consider this country the symbol of achievement.

From India Mrs. Gilbert went to Ceylon and its world-famous tea gardens. There are over five million people on the island (as of the 1931 census). The main city is Colombo, which has been known since 1345. The Dutch occupied the city from 1656 until 1796 when it fell to the English.

From Ceylon she went to Singapore, that Far Eastern modern city under British influence. Then to Bangkok, Thailand (Siam), with its more than 300 Buddhist temples and floating markets. Then to Tokyo, Japan, that busy city of 11½ million people.

### "Moved" At Hawaii

From Japan Mrs. Gilbert flew to Hawaii. She said she almost "burst into tears" when her plane landed at the airport for what should meet her eyes but a huge sign reading, "Welcome to the United States." She said the people of Hawaii are real proud to be a part of the United States. They refer to this part of the country as the "Mainland."

Landing in Hawaii was one of Mrs. Gilbert's "two big thrills," the other being her Thanksgiving dinner, 37,000 feet in the air. Her plane finally came to rest at the Los Angeles Airport. She said she was most happy to have traveled around the world but that her happiness was beyond description when she finally arrived "home in Spring Valley."

### MORSES SETTLE HERE

a "star" in the film and is making appearances with it before the district's teachers. Here she poses with Highland's principal, Paul Radenheimer, when the film was shown to her fellow teachers at the school.

## Educational Picture Filmed In L.M.-S.V. School District Being Shown Nation-Wide

A national movie studio that produces educational films lately gave one of its productions to the La Mesa-Spring Valley School District free of charge—and for good reason. The film, made by the "Learning Through Seeing" movie company, was shot at Brier Patch Elementary School in La Mesa and teachers and pupils there "star" in it. The film is one in a teacher education series and teachers across the nation will be shown this movie entitled "Reading, The Language Experience Approach."

When the finished product arrived in the LM-SV School District, it was much in demand. One of the stars in the film, Mrs. Nancy Mason, who now teaches at Highlands Elementary School, has been making appearances with the film before some of the 500 teachers in the school district. She answers questions after the movie is shown.

The film is for the purpose

of showing the interrelations of the language skills of listening, speaking, writing and reading.

It shows kindergarten through sixth grade classes being taught at Brier Patch. Other "stars" are teachers Mrs. Lorraine Jones, Mrs. Mildred Brobst and Brier Patch principal James Halcomb, who with Dr. R. Van Allen of the San Diego County Department of Education and Boyd Lane, director of curriculum for the LM-SV School District, directed the movie.

A spokesman for the school district said that the original (unused) film of the same title had just a few scenes from Brier Patch in it. The "Learning Through Seeing" company was so impressed with those few that they threw out all other scenes and made the entire sequence at Brier Patch. The school district and the staff and pupils in the film are now getting nation-wide publicity.

### NEW HOMES TO BE NEAR SANCTUARY

On the hill above where Broadway meets Palm at the northeastern extremity of Lemon Grove, a nice new group of homes is being planned. Many of the homes will be under the architectural dominion of the recently-new Trinity Presbyterian Church sanctuary on the summit of the hill. It can be seen for miles in any direction.

The planned homes are of the better-than-average class. If the occupants follow the local trend toward outdoor Christmas light decorating, the beauty of that section will be distinctive at Yuletide.

# The DIMMER VIEW

Legislators and Congressmen should be looking for places where various "aid" programs can be cut back and a true tax relief program inaugurated instead of trying to soap the public that welfare state programs are free.

# Voters Lose Eligibility By Not Voting In General Election

It is interesting to note that a large segment of our population fails to exercise its franchise during a general election. These citizens become disqualified to vote at future elections without being reinstated.

This year, for the first time, Charles J. Sexton, County Registrar of Voters, is sending out postage-free cards to 104,000 persons whose names are being removed from the election rolls to invite them to get reinstated. The process is simple and without cost to the citizen. He simply signs the card and mails it back. Presto! He's reinstated... provided he has not changed his address since he last voted in a general election.

In the event the voter has changed his address he must re-register. That is equally simple and free of cost.

Free is hardly the word, since it costs the county about a dollar to re-register a voter. Sexton says the reinstatement process will cost the County no more than a quarter. More than 20,000 of these persons may be returned to the rolls by reinstatement and that represents a big wad of money the County can save.

# Are these voters important politically? They certainly are.

In this area's Congressional District (37th.), Van Deerlin (D.) defeated Dick Wilson (R.) by a few more than 3,000 votes. In the same District 12,600 Republicans failed to get to the polls at all. Obviously, the results of the election could have been changed if 3,000 of the Republicans had made the trip and followed the Party line. It is only fair to report that more than twice as many Democrats stayed away from the polls as did Republicans in the 37th. District.

In all districts, 104,906 voters of all graduations found cause for total voting abstinence and all of them are being transferred to the ineligible category, Sexton said. The number left ineligible is a whopping 365,442.

How some of the "dropped" voters line up by districts is shown here.

In the 77th. Assembly District, 19,732 failed to cast. Of these 6,400 were GOP and 12,200 were Demo. voters.

In the Supervisorial District, of which Lemon Grove and Spring Valley are part, 28,600 missed the election. 10,200 of these were Republicans and 16,915 were Democrats. The variance in the totals above is caused by non-partisans included in the totals.

Comparing the two parties on a we'll-sit-this-one-out basis, 50% more Democrats stayed away from the polls than did Republicans. But of those who voted, only 4 per cent more were Democrats.

This, we should think, would indicate the Democrat was far more dissatisfied with the entries than were the Republicans.

# A Trip Down Jordan On An Ecclesiastical Credit Card

A young minister in the mid-west installed a BankAmericard type contribution system in his church and overcame the church's financial embarrassment.

He issued plastic cards to members of his congregation with the member's name embossed upon it. Contributors pencilled onto the card the amount of their giving and dropped the card into the collection plate.

Cards, together with postage-paid remittance envelopes were mailed out each Monday and the donors popped the amount of their pledge in the envelope and dropped the envelope in the mail box. He erased his pencilled mark on the card and it was ready for next Sunday.

An ecclesiastical credit card, so to speak.

# Did Sheriff Joe O'Connor Commit A Political Faux Pas?

Som adherents of Sheriff Joe O'Connor are expressing shock at the appointment of O'Connor's 19-year-old son as a special investigator at \$9,000 a year salary.

There are many officers in the Sheriff's Department who were deserving to be moved up both by experience and ability and the morale of some of these has been affected.

The public demands fairness to underlings in political offices and one of the reasons Elmer Jansen was defeated by O'Connor is because the supervisors appointed him a few months before the election for the presumable reason that he could run as an incumbent. The political play backfired O'Connor into office and Jansen out.

The appointment of his inexperienced son to the special post is costing O'Connor in following and in morale of his personnel.

Fairness would have suggested that he put his son in as a deputy for a year or so before making the assignment.

Man, as a general rule, thinks AVERY HAWKINS

# GIRL THANKS MERCHANTS FOR YULE PLAYHOUSE

Please tell all the merchants thanks for the playhouse. Thank you also. It was the best present of all. Some of my friends came over to play in it.

I hope you have a very Happy New Year.

When the chamber of commerce learned the playhouse couldn't be delivered until after Christmas several chamber board members and the executive manager acquired man-power, a truck and other necessary equipment and put the playhouse down in Darlene's yard on Christmas Eve.

# CALIFORNIA'S SECRETARY OF STATE WARMED BY "3,000,000 FRIENDS"

Dear Editor:

This is my simple "Thank You" for one of the most heart-warming experiences of my life.

Certainly, my re-election pleased me greatly. We all like to win.

But the ingredients which went into my retention as Secretary of State were far more gratifying to me than the mere victory itself. I realized more clearly than ever before that true friendship is the most precious possession we can gain, no matter how long we live. It makes me feel very humble to know that more than 3,000,000 Californians expressed their friendship for me at the polls.

Then, too, the result renewed my faith in an American principle in which I have always believed profoundly.

This is that our two great political parties are intended, in the final analysis, to unite us rather than to divide us.

Those of us who try to serve the public faithfully, and to carry out our trust honestly, must depend upon the voters of both political faiths to ratify our actions. I could not have been chosen by the voters of just one party. It required the combined goodwill of people in both to entrust me with my office again.

# CIVIL DEFENSE REVISES MASTER PLAN FOR UNINCORPORATED AREAS

The pattern for the civil defense organization of 18 unincorporated communities in San Diego County is outlined in the Service Center Plan, mailed by the Unified Civil Defense Center, William B. Marty, administrator said.

Approximately 350 copies were mailed to community leaders, including administrators, special district managers, chambers of commerce and club presidents, he said.

Under the plan, Service Centers will replace the 23 civil defense zones which existed before San Diego County joined with ten cities to organize a Unified Civil Defense program, he said.

Listed as Service Centers are Alpine, Borrego, Campo, Fallbrook, Jacumba, Julian, Lemon Grove, Lakeside, Pine Valley, Poway, Rancho Santa Fe, Ramona, San Marcos, Santee, and Vista. The communities of Leucadia, Solana Beach, Cardiff and Encinitas are identified as the "Coast Area" Center with headquarters in Encinitas.

This, in turn, would not have been possible without that great forum that unique mirror of American life, that Constitutional bulwark of basic liberty — the free press. In the full and open discussion of every aspect of our political life lies the strength of the institutions of our Republic. Thomas Jefferson in proclaiming his belief that the newspapers — meaning actually, free discussion in all its forms — stand with government itself as twin symbols of our intertwined liberties, voiced a prophetic truth which I acclaim.

The newspapermen and women of California and the representatives of every media of information treated me fairly and with consideration and decency. True, I was attacked. That is the meaning of a free press; that an attack could be made. But I was warmly defended; that is the necessary corollary, the balancing factor.

And, when all had been said on both sides, and the voters had heard everything both bad and good, I was the victor.

My feelings of gratitude and thankfulness to the press go beyond these recitations of a philosophic fact. Into my mind comes the names and the images of many a good friend of long standing. For years, our lives have been closely related. I have trusted them. They have trusted me.

This gives me a satisfaction which words cannot express. I am thankful for the American system.

I am thankful for my friends. I promise to do my best.

As we have said for so long, in the California traditions: "Vaya con Dios!"

# March Of Dimes Drive Underway

The major expense, amounting to \$38,507.00 was paid out for time spent in hospitals by polio victims.

"Thanks to the Salk and Sabin vaccines which were developed solely through contributions of the American people to the March of Dimes, polio has ceased to be a public health menace in this country," she declared.

March of Dimes funds now are being used to aid persons, particularly infants and children, suffering with birth defects and arthritis and to support research to find causes and preventives for these crippling conditions, Mrs. Cobb said.

Much of this research will be carried on at the Salk Institute for basic research now under construction at Torrey Pines. It will be financed in the amount of two million dollars annually by the March of Dimes. One million dollars will go for operation and maintenance of the Institute and the balance for its endowment. The Dimes campaign runs through January 31.

# Vaccinations To Be Given Dogs Here

SAN DIEGO (CNS) — All dogs over four months old must have new licenses by Jan. 31, and proof of vaccination against rabies is required to get a license, according to Dr. E. R. Quortrup, director of the county livestock department.

A license may be obtained by mail from the tax collector, at Civic Center, for \$2 and proof of vaccination, Quortrup said.

A license may be obtained in person, he added, at the Spring Valley Animal Shelter.

Dog owners are urged to take advantage of the clinic for rabies vaccinations being set up by the San Diego County Veterinary Assn., at a charge of \$1.50 per vaccination.

Quortrup said clinics will be operated throughout the county until Jan. 22. Addresses of local clinics, with operation from 7 to 9 p.m. Jan. 16 are at the Spring Valley Fire Station, Casa de Oro and San Altos school cafeteria, Lemon Grove.

Quortrup said the cost of a license will double after Jan. 31. Vaccinations are also more expensive when not received at a clinic.

## GRIFFIN HOOPSTERS SHOW IMPROVEMENT DESPITE DEFEATS IN NON-LEAGUE GAMES

The Grossmont College basketball team was defeated twice in games played during Christmas vacation for the purpose of polishing their offensive and defensive style.

The first one with Oceanside-Carlsbad Junior College resulted in a win of 77-68 for the victor's court.

San Diego State freshmen hoopsters beat the Griffins 65-52 on Dec. 29. Two Aztec players—Craig Nettles and Ed Perez—each scored 18 points to spark the opponent's win.

Both games were non-league ones and the Grossmont College

sports staff believes that the Griffins improved their playing in the "polish-up" tilts. In the game against Oceanside-Carlsbad the shooting accuracy of Grossmont went up to 39 percent.

Charlie Paddock and Bill Bruce of Grossmont scored 19 and 16 points respectively in the battle with the Aztec frosh team.

The score in the game against Oceanside-Carlsbad is misleading in itself. The three-game series between the two colleges stands at two wins for the Griffins.

## Sabin Vaccine III To Be Given Free Feb. 10

Plans for dispensing Type III Sabin oral vaccine in San Diego County on Feb. 10 were announced today in a joint statement by Dr. J. B. Askew, M. D., director of the San Diego Department of Public Health, and Dr. John A. Bishop, M. D., chairman of the Sabin on Sunday program. Type II will be given with a donation expected.

Representing the County Medical Society and the Department of Public Health, the Sabin on Sunday committee reviewed reports and recommendations of the Surgeon General's polio advisory committee and of the polio advisory committee of the California State Department of Public Health, as well as other information currently available on vaccine-associated cases in the United States. On the basis of this review, the Sabin vaccine program will be completed throughout the county by offering Type III oral vaccine to people of all ages on Feb. 10.

### Two Lemon Grove Boys Among Cal Westerners Tapped For 'Who's Who'

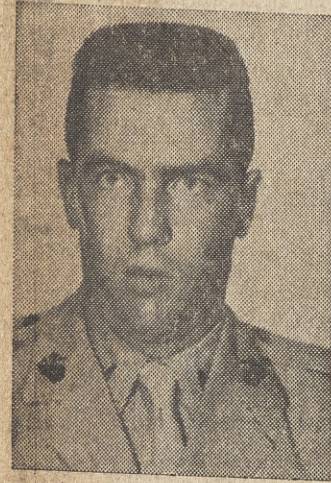

Dr. William Clark, Dean of Students at California Western U. in S.D., announced that 20 of the University's students have been selected for listing in "Who's Who Among Students in American Universities and Colleges."

Those tapped for the 1963 edition were chosen on the basis of scholarship, citizenship, participation and leadership in extracurricular activities, service to the University, and promise of future accomplishment.

A 1959 graduate of Mt. Miguel High was tapped. He is Daniel R. Heiserman, son of Mr. and Mrs. Raymond Heiserman of 1601 Cameron dr., L.G. The education major, 21, is president of the senior class and is very active in the University Players drama group.

Heiserman was the outstanding senior speech student at Mt. Miguel. He was awarded five trophies for speech contesting, four of them from the S.V. Lions Club.

Bernard Lee Young, 21, a graduate of Lincoln High School and presently attending Cal Western also was among those selected for the national list of collegiate leaders. He is the son of Mr. and Mrs. Burton M. Young of 7115 San Miguel, L.G. While attending Lincoln High, Bernard lettered in track and cross country. An Elementary Education major, he will receive his degree in June.

### L.G. Marine Lieutenant Takes Quantico Course

QUANTICO, Va. (FHTNC)—Marine Second Lieutenant James M. Matthews, Jr., son of Mr. and Mrs. James M. Matthews, Sr., of 7851 Mt. Vernon st., Lemon Grove completed a basic course for newly commissioned Marine Corps officers, Nov. 21, at the Marine Corps Schools Command, Quantico, Va.

The course consists of classroom work in personnel administration, first aid, map reading, weaponry and leadership techniques. Field problems give students experience in practical application of the knowledge gained in the classroom.

The SOS committee urges immunization with Type II vaccine for children, in whom the danger of naturally occurring poliomyelitis is greatest.

Persons taking the vaccine should realize that there is a potential risk of vaccine-induced poliomyelitis, especially in persons over 30 years of age.

Among 11 reported poliomyelitis cases associated with 15 million doses of Type II vaccine given to all age groups in the United States, eight have occurred in adults over 30 years of age. Vaccination is especially recommended for those adults with the greatest risk of naturally occurring disease: parents of young children, pregnant women, and those planning foreign travel.

The clinics throughout the county are well organized and the volunteers are now experienced. This makes it possible to reduce the clinics to a single Sunday. Clinics will be held at the same locations as before.

### Young Demos Hear CFYD Joe Beeman

### Two Grove Groups Win Awards From United Community Services

A Lemon Grove business firm and a Lemon Grove employee group this week were given awards for their participation in the 1962 United Community Services campaign.
